To: Paul Baker &lt;paulbaker@utah.gov&gt;, Mike Bradley &lt;mbradley@utah.gov&gt;

Paul &amp; Mike,

FYI, I just spoke with Boyd Brotherson to let him know our plan to inspect this next Monday afternoon to document any noxious weeds prior to any permit transfer that might occur. Mike, this is regarding the western permit site near Moroni.

Boyd said that he has a bad knapweed infestation on his property that the county is actively trying to help him with. I asked if it was on the areas that Todd Wilhite mined, and he thought about it for a minute, and said that he thought it was in some of the areas, so it sounds like it's mainly a problem on his property in areas that may not have been mined. I assume that we will still want to take photos of any infestation on mined areas.

The county brought in some bugs, which apparently didn't help. They are trying something called Millstone this fall.

Peter
